

# **CECUA ACADEMY**

## **Mission Statement**

The Academy is a representative body of players in the Global Information Society which identifies and promotes the interests and rights of citizens in the Global Information Society by working with other major players to develop a system of Internet Governance which ensures that the Internet Society is a safe environment for citizens which is lawful, respects diverse cultures and individual rights.

The Academy will work with the European Parliament, the Committee of the Regions and the European Commission in particular to provide effective safeguards for European citizens in the Internet Society in particular to redress the balance between commercial interests and the rights of European citizens and to preserve the variety of European cultures.

The Academy will also work with other global and national organisations to promote communication and exchange of ideas on matters of common concern.

The Academy must be able to act completely independently of governmental and commercial interests.
